

Our Core Purpose

The Mission

JestGreen designs innovative, clean solutions that elevate the users curbside experience through the application of clean technology. JestGreen is focused on modernizing the mobile food industry by providing healthier, safer, and eco friendly food kiosks. We promote entrepreneurship, the building of healthier communities, while being a steward of the environment and by reimagining sustainable solutions for Mobile Food in the modern metropolis.

Mission Statement

JestGreen gives our users the power to live and eat a greener lifestyle deliciously. We compost, recycle, create & conserve energy and practice pollution prevention everyday.

Values Statement

JestGreen believes in maintaining the natural cycles of our environment. We want to help stop the abuse of our planets natural resources and give future inhabitants of this beautiful planet a chance at life. Every action has a reaction. We want our companies' actions to spark positive reactions and open eyes to doing business in a way that is profitable and at the same time conscience of how we operate beyond the dollar.

Vision Statement

To foster a healthier society while at the same time creating an unmistakable brand known for consistency, quality, product and service innovation and unmatched user satisfaction.
